

Greenway Group Supports 2016 Class of AIA Fellows in Philadelphia

Greenway Group, along with the Design Futures Council and DesignIntelligence, will again sponsor this year's American Institute of Architects College of Fellows Convocation Dinner at the AIA Convention in Philadelphia in May.

"All of us at Greenway Group offer our heartfelt congratulations to the 2016 class of accomplished Fellows. We recognize and honor the contributions they have made to the profession, their communities, and ultimately to the well-being of people," said Lisa Henry, CEO of Greenway Group.

The College of Fellows promotes the purposes of the Institute, advances the profession of architecture, mentors young architects, and serves society. Fewer than five percent of current AIA members have been accepted into the College of Fellows.
