

Greenway Partners and Principals Discuss Growth at Annual Meeting in Colorado

Neither rain, nor snow, (or more snow) could keep the Greenway Group leadership team from their Annual Meeting at the Broadmoor Hotel. Lisa Henry, CEO, convened the meeting which was enlivened by Jim Cramer, Greenway's Chairman, David Henry, Partner, and Principals Scott Simpson, Doug Parker, and Suzan Globus (pictured here among the Anschutz Western Art Collection in the Remington and Russell room). The headline at the meeting relates to growth in the financial and investment banking services at Greenway Group driven by the needs of the firm's clients. The addition of David Henry, Partner and acquisition of his firm by Greenway Group has expanded the company's ability to structure and negotiate more complex financial transactions; especially in the mergers and acquisitions realm. In addition, of note, is Greenway's expanded services offering for early and mid-stage growth companies.
